

Airworthiness Office Specialist (m/f/d)

SST Flugtechnik GmbH is a Part 21J Design Organization, based at the Allgäu Airport in Memmingerberg and providing extensive experience in aircraft design and certification to in-house and external aircraft programs.

- Development and certification of new products and Supplemental Type Certificates (STCs)
- Design of changes and repairs
- Mission system integration
- Continued Airworthiness for Type Design

Location: Memmingerberg, Germany

Start date: Immediately

Your future:

- Creation of certification and approval programs in coordination with design engineers and compliance verification engineers (CVEs)
- Communication and cooperation with aviation agencies EASA and LBA on project level
- Management of agreements between subcontractors and the SST Design Organisation regarding the methods of verification
- Checking and approval of the compliance demonstration by signature
- Archiving and management of approval documents
- Support of aircraft operators and CAMOs regarding airworthiness related topics
- Participation in process improvement regarding the Design Organisation and its procedures

Your qualifications:

- Graduate engineer (FH/Univ.) in aircraft design or equivalent technical qualification with at least 7 years of professional experience in the field of flight operations or aircraft technology as well as aircraft design
- At least 5 years of experience in the field of aircraft and equipment certification
- Thorough knowledge of EASA Part-21 and CS/JAR/FAR Part 23
- Knowledge of EASA Air-OPS, EU-OPS and FAA Part 91
- Strong team spirit and good communication skills
- Fluent English language skills (spoken and written), German language beneficial

We offer:

- Exciting and varying tasks
- Flat hierarchies in a flexible work environment and short communication paths
- Dynamic and dedicated team
- Further training opportunities
- You can look forward to a varied and responsible job perspective in which you can make use of scope for development and help to shape processes

Application:

If you are interested in this challenging position, please send your application in English to the mentioned contact person stating desired salary and earliest start date.

We are looking forward to receiving your application.
