

TECHNICAL PUBLICATIONS

Extra Aircraft / Extra Flugzeugproduktions und Vertriebs-GmbH would like to announce that technical publications are available in electronic formats.

Technical Publications are now available over the World Wide Web (direct link <http://www.extraaircraft.com/techserv.asp>).

Extra Aircraft Electronic-Publications (e-Pubs) provides the latest technology in electronic publications has to offer. These e-Pubs are fully interactive, which will reduce the research time necessary for maintaining Extra airplanes. E-Pubs are also less expensive than paper and revision notification is by e-mail.

FAA Advisory Circular-Nº: 120-78, Paragraph 9, cites "These electronic formats offer improved data accessibility, quality control, and speed distribution over paper or microfilm-based information storage systems that result in enhanced safety".

In addition, the industry and government should experience a reduced economic burden because users will have rapid access to information at reduced cost as well as improving the presentation of technical data contained in a certificate holder's or operator's manual(s).

Currently available Extra Aircraft e-Pubs include:

- Maintenance/Service Manuals
- Service Bulletins
- Service Letters

Paper copies of publications will continue to be available if this is your preference format of publications. Orders can be placed by contacting Extra Aircraft at e-mail: ExtraAircraft@ExtraAircraft.com or facsimile +49-(0) 2858-9137-30.
